# UK SENIORS

2009

# Edgy Stylish FUN

You want those fun pictures - those stylish pictures - those pictures that show the real you.

Remember those school images that made you want to laugh or cry ..... well no more because UK Seniors have arrived.

Now is the time to book those sessions - and bin those old school photographs.

Sessions are fun and move at a relaxed pace. With multiple locations and clothing changes, your images will truly reflect you, at this crossroads in your life. Multiply your fun by bringing a friend for some shots together, in addition to your individual images.

Your carefully selected and edited images will be viewed in a password protected, online gallery with options to purchase prints, framed wall portraits, canvas prints and albums.

Say NO to cheesy school pictures - UK School Seniors are for you!

We take those pictures that you always wanted and that all your friends will want. If you are lucky enough to have a referral card from a previous "UK Senior" then get 10% off your session price

Within 2 weeks you will receive a link to a gallery of proofs so you can pick your favourites, you will have one week to choose then the gallery will be taken down. Keep in mind that your monitor may not show the exact color of the images. My monitor is calibrated to show the image exactly like the lab will print them.

The portraits that you chose will be processed by a professional print lab and these are developed just like film they will last for generations. When they are complete you can pick them up at your convenience, or I will deliver them to you. This process will take about 2 weeks, longer during any holiday.

Take a look at the following page for details of prices.
